

FOR IMMEDIATE RELEASE

FLOOD ADVISORY

October 18, 2007 - 3:30 p.m.

***LAKEHEAD REGION CONSERVATION AUTHORITY
FLOOD ADVISORY***

The Lakehead Region Conservation Authority advises that almost 45 mm of rainfall has been recorded at area gauges over the last 8 hours. Rainfall is forecast for Thursday evening and into Friday with an additional 30 to 40mm of rainfall expected in the next 24 hours.

The rainfall has resulted in area streams and watercourses approaching bank full conditions. Localized ponding may occur in low lying areas.

The public are advised to exercise caution in and around area waterways and to remove stored items adjacent to stream banks to higher ground.

Authority staff continue to monitor conditions. Updates will be issued as warranted.
